

ProPlus™

Rescue Systems from Sapsis Rigging, Inc.

ProPlus™ Rescue System Enhances Safety

The ProPlus™ Rescue System is designed to safely lower a victim to the ground, preventing additional injury and the negative effects of suspension trauma (aka orthostatic intolerance).

Designed specifically for entertainment industry technicians, the ProPlus™ Rescue System includes the components needed to execute a safe and efficient rescue at height in any type of facility or venue. It is an integral part of a comprehensive rescue plan and meets all OSHA and ANSI Z359 requirements for an assisted rescue.

Please call 800.727.7471 for more information.

The ProPlus™ Rescue System consists of:

- Manually-operated controlled descent device
- 15' (extended) telescoping rescue pole with rescue clip
- Carabiner for use with the rescue pole
- Scaffold hook for system anchorage
- Synthetic rescue ladder
- 100' X 1/2" synthetic rope
- Rescue 8 with ears
- Storage bags with attachment straps
- Utility gloves
- Operating manual
- T-shirt

The ProPlus™ Rescue System at a Glance

- Meets or exceeds OSHA regulations and ANSI Z359 standards
- Lightweight and compact
- It is easily operated by one person
- Suitable for theatres, arenas and other entertainment venues
- System designed by entertainment riggers for entertainment riggers
